

## EOC converter - Ethernet converter/1 coaxial cable

1093/835

- 1 10/100M RJ45 auto-sensing port
- 1 BNC port
- Transmission distance: 300m
- Power supply type: 12V DC, 180 mA

**106,52 Euro (VAT excluded)**  
Price list valid from 01/09/2024

### Description

The EOC (Ethernet Over Coaxial) converters are easy to use, do not require Hardware or Software configurations, no IP settings, it is only necessary to connect the Ethernet cables and the coaxial cable.

They have the advantage of covering long transmission distances at high speed. They support multimedia services and flexible network topologies. They are mainly used to convert analogue to high-resolution IP systems, or to create long-distance wired IP transmission systems.
